

Switch Signal 6-Keys FSK Remote Controller

Ver 1.0

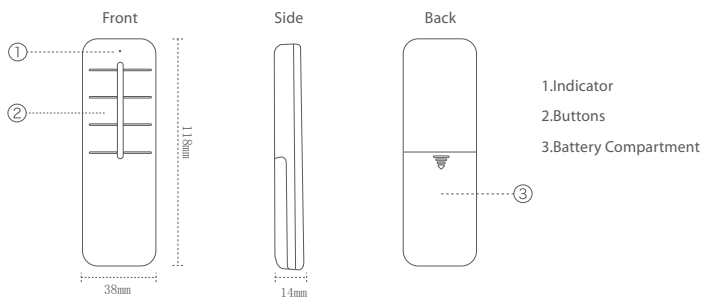

Note: please read the User's Guide carefully, before using this product. Please keep this manual properly, for future reference.

Overview

This remote control is available for 433/868/915MHz, and normally used together with our DL-A7149K8-RX switching control RF Receiver Module as a pair.

It can be widely used in remote meter reading, smart home, smart security, industrial control, smart agriculture, smart lighting, and new energy vehicle control systems, etc.

Note: special function (LED light / key value) can be customized, with a certain MOQ.

Indicator: defaulted as red light

Button: 6 Keys

Matching Product: FSK Switching Control Receiver Module

Technical Parameters

- Model: R-E01-K6F
- Frequency: 433Mhz/868Mhz/915Mhz
- Communication protocol: digital signal switching control (high/low level)
- TX Current: 107mA $\pm$ 10
- Sleep Current: 2.5uA
- Power Supply: 2 * AAA battery
- TX Power: +19dBm
- Communication Range: roughly 600m (open area)
- Size: 38*14*118mm
